

**HELP CHANGE THE LIFE PROSPECTS**  
of students in low-income communities.

**THE CHANGE BEGINS WITH YOU.**

- 1.2 million students in California drop out of school each year—17,000 California eighth graders quit before attending a single day of high school.
- 82 percent of students from the top-income quartile in America will graduate from college, while just 8 percent of those in the bottom-income quartile will.
- **KIPP is proving the possible.** If KIPP Bay Area Schools were a school district, it would rank in the top 10 percent of all public school districts in California—regardless of demographics.
- **KIPP is leading the movement.** 86 percent of students who completed eighth grade at a KIPP school in the Bay Area are in college this fall—more than double the average rate found in low-income communities nationally.
